## PROJECTS

### Disney Clone— *HTML, CSS, JS, React*

- A frontend clone of the Disney web page using React

### SMS Text Classifier— *Python, Machine Learning*

- Built a machine learning model that classifies emails into “ham” or “spam”.
- Helps in categorising emails, hence cleaning the inbox.

### Captcha Recognition Model— *Python, Machine Learning*

- A model that predicts a given captcha
- About 80% accuracy for individual characters of a captcha.
